I CAN DO THAT! GAMES

The Curious George Hide and Seek Zoo Game puts George in charge of the zoo. Players must help Curious George and the man with the yellow hat feed and care for zoo animals, repair fences, and clean up messes. When the electronic “walkie-talkie” says that the animals have escaped, other players grab their masks and hide and the player must find them within a set time limit.

When the electronic “walkie-talkie” says that the animals have escaped, other players grab their masks and hide and the player must find them within a set time limit.

In Curious George Discovery Beach (shown), players comb the beaches to reach the goals set by flipping a card. Sea creatures and treasures are hidden below five secret beach locations and must be matched to the player’s cards. When the spinner lands on a wave, a player must shake the box and the treasure will hide in new locations.

The Curious George Super Helper Game lets kids help Curious George help others around the neighborhood. Players flip over three cards to see who needs help, pick a place to help, and drop the included ball, coin, or cube into the Super Helper tower and try to make a match as they come down on different sides.
